Not only this, but this is a very unreliable character who can do anything at anytime especially for money; and this is entertaining and fun to watch"*

Furthermore, commenting on donning the role of a Radio Jockey for the first time, he shared, *"I am really excited for this as my fans will get to see another side of mine. The role of a Radio Jockey seems very fascinating from the outside but it's actually the opposite. It not only requires good communication skills but also requires a lot of hard work, research, perseverance and not to forget a good sense of humour. I really had an amazing time co-hosting the show with BIG MJ Dilip."*

Speaking about sharing the space with Amitabh Bachchan in the movie, he said, "It is the first time that we have shared a screen together. I am a huge fan of Amit Ji. Infact, I was so nervous for the first shot. It's been like 30 years and I was really looking forward to work together. He is such a warm and a generous person, and I loved working with him."

Talking about his journey in the industry so far, he commented, *"It's a very wonderful experience. I had never thought that I would stay this long in the industry considering the shelf life for actors which is usually 6-8 years. Moreover, I am happy about the fact that I have been able to form great relationships in the industry; I also understand my audience and have developed a kind of deep and non-tangible connection with them."*
